

MD. SABBIR AHMED

UX/Product Designer

UX/UI Designer with **2 years of experience** creating functional, user-focused digital products. I've delivered end-to-end experiences across various sectors including **E-commerce** (Your Jewel, Coral Stash), **Service/Booking** (Paddle Now, Food Delivery), and **HRM** (The Duty Hour App). I partner with development teams to deliver and launch **Web** and **Mobile applications**. I'm proficient in Figma for creating end-to-end user flows, wireframes, and pixel-perfect UI mock-ups, and I aim to design products that solve real user problems with ease and clarity

Experience

UX/UI Designer | Sparktech Agency

2023 - Present | Full Time

- **The Duty Hour App (HRM SaaS)** — Designed the core self-service flows and subscription-based architecture for this HRM application.
 - **Monetization Model:** Created the UX for the **subscription package purchase flow**, allowing admins to buy access to the HRM dashboard.
 - **Core Feature:** Engineered a **dual-factor attendance system** that validates employee location through **geofencing and mandatory Wi-Fi SSID** connection at the physical work site.
 - **Admin Setup:** Developed flows for the business admin to easily **create their institution**, define the accurate location using **geo-fencing**, set the **Wi-Fi credentials**, and onboard employees.
- **YOUR JEWEL E-Commerce Website** — Led the design of the product display and purchase flow. Designed a unique Complimentary Engraving feature (custom text, images, motifs, or doodles).
 - **Impact Feature:** Created an elegant product showcase with advanced filtering (material, price, type).
 - **Unique Selling Point:** Integrated Complimentary Engraving for custom text, images, or motifs.
- **The Pigeon Hub Website** —Designed the end-to-end UX for a complex, data-driven platform focused on competitive pigeon racing.
 - **Core Functionality:** Created a user interface to generate reliable **pedigree records and match results** using structured database data.
 - **Data Integrity & Management:** Designed sophisticated **data input flows and dashboards** enabling both admin and users to accurately add, validate, and manage comprehensive pigeon data.
 - **Platform Goal:** Focused the UX on **clarity and efficiency** to transform raw data into actionable insights for pigeon match organization and tracking.
- **Paddle Now (Sports Court Booking App)** — Designed a platform for Americano tournaments. Features included flexible match setups and automatic result generation, and simple event booking.
 - **Objective Achieved:** Implemented automatic result generation and flexible match setups for Americano tournaments.
 - **Core Feature:** Simple event booking for both casual and recurring matches.
- **Food Delivery & Pickup Application** — Designed the end-to-end user flow for instant food booking. Features included a map view for vendors and the ability to cancel orders before preparation starts.
 - **Usability Focus:** Integrated a **Map view** to explore available vendors and allow order cancellations before preparation starts.
